Setting up notifications from a mobile device

Please note: Parents can manage their own notifications within their own account, however they can not manage their child's.
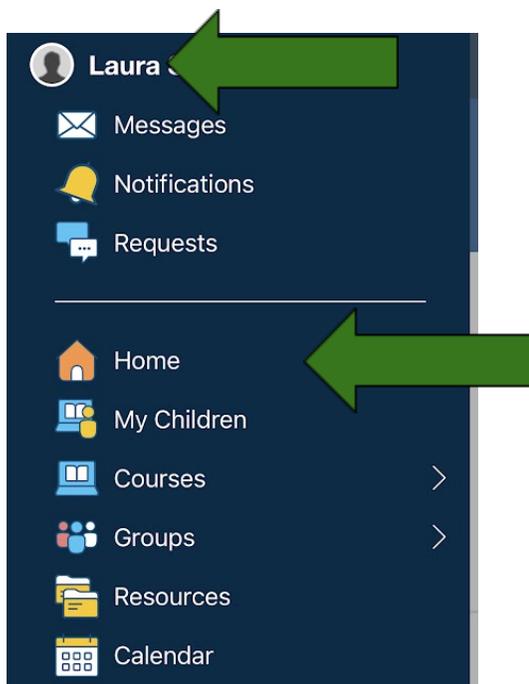

1. **Navigate to the Schoology app**

2. **Make sure that you are logged in under your parent account.**
   If you are proceed to step three.
   **If you are not logged in under your parent account, please select home.**

3. **Click on the "three solid lines" in the top left-hand corner.**

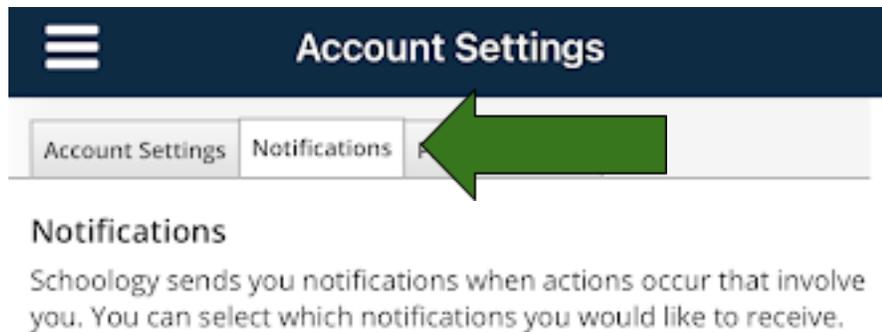

You are not currently enrolled in any courses

4. Click on "account settings"

5. At the top you will see account settings, notifications and privacy settings. **Select "notifications".**

6. Check which devices are receiving push notifications.

7. To ensure you are receiving the proper notifications, mirror the follow settings on your mobile device.
